K:Port™ EV Charging Station

Portishead | GB

K:Port™ EV Charging Station

Portishead | GB

In addition to the latest generation of rapid chargers and a sustainable wooden canopy, the EV charging station includes further special features such as an integrated photovoltaic roofing system and a holistic planting concept that enables a sustainable drainage strategy.

Robust and durable

The canopy of the charging station for electric cars, intended for four vehicles, is made of long-lasting larch glued laminated timber of the highest visual quality. It consists of a central support element with four cantilevers connected to it, and with roof purlins on top.

Data & Facts

Customer

North Somerset Council

Architect

Hewitt Studios LLP

Year of construction

2021

Products used

Glued laminated timber Larch

Volume

7 m³ Glued laminated timber

About the HASSLACHER Group

The HASSLACHER Group is a globally active innovation leader in the field of intelligent and integrated system solutions for modern timber construction. The family-run enterprise has had its roots for generations in the use of wood as a wonderfully renewable raw material and for more than 120 years has stood for a pioneering spirit, performance, quality, sustainability and social responsibility.

Together with its 2000 employees, the HASSLACHER Group produces innovative products for modern timber construction in the areas of sawn timber, profiled timber, glulam, cross laminated timber and construction timber at eight sites in Austria, Germany, Slovenia and Russia. True to its maxim „From **wood** to **wonders**.“
